MEDICAL CONDITIONS & INJURY PROTOCOL

Any pre-existing medical conditions (asthma, allergic reactions, etc.) should be listed on your child's 2021 physical form. Safety is #1!

- There is a difference between being "hurt" and being "injured"

All INJURIES (concussion, severe sprains, fractures) need to be brought to the attention of your team's Head Coach and one of our Safety Staff.

Every INJURY will require an incident report (insurance form) to be completed with the safety staff (Team Mom will have copy and it is on our website for download).

When an injury results in a visit to a doctor then a release note from that physician will be required before the child is allowed to return to practice or games.

CONCUSSION PROTOCOL

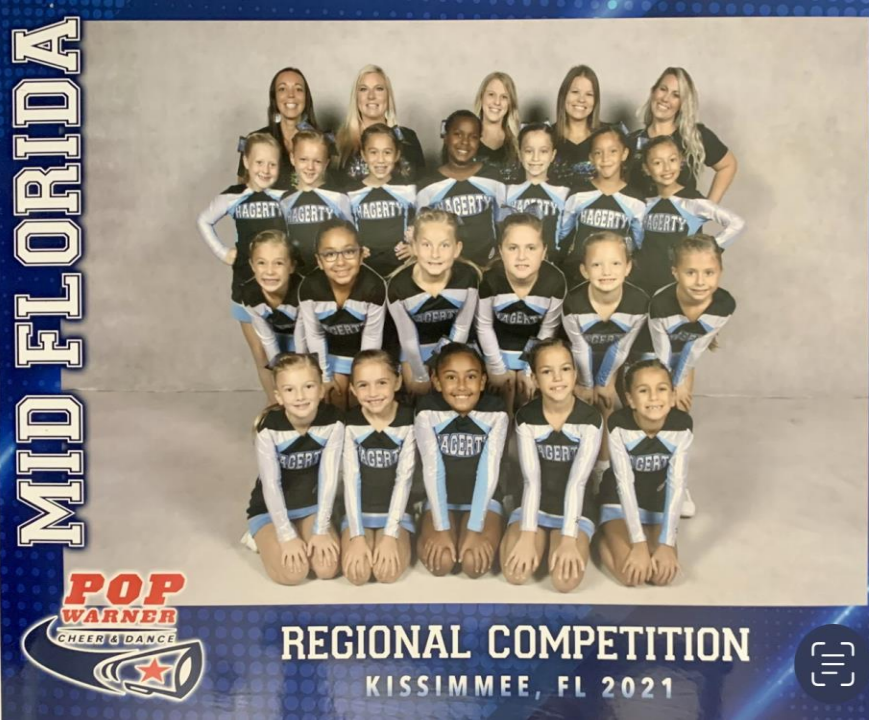

- ⑩ All coaches and safety personnel are trained to identify concussions through USA Football yearly
- ⑩ Heads Up football training has been implemented throughout Mid-Florida for the last 5 years keeping our concussion injury rate under 2%
- ⑩ Any player suspected of a concussion will be pulled from the field immediately and referred for further diagnosis.
- ⑩ Any player with concussion diagnosis must complete the concussion protocol before they are allowed to return to the field

- Please do NOT use practice/games as punishment for your child. This only punishes every child on the team.
- Please do not schedule vacations/events during important games/competition schedules. This effects the WHOLE team.
